PROFESSIONAL SUMMARY

AML/KYC Analyst with 1+ year of hands-on experience in fraud investigation, transaction monitoring, Customer Due Diligence (CDD), Enhanced Due Diligence (EDD), and regulatory compliance at Wipro (Google Client). Reviewed 300+ cases weekly while maintaining 98% SLA adherence and reducing team error rates by 90% through structured quality audits and root cause analysis. Proven ability to identify financial crime patterns, escalate suspicious activity, and drive process improvements that strengthen compliance frameworks and operational excellence.

TECHNICAL SKILLS

AML & Compliance: KYC, CDD, EDD, AML, Transaction Monitoring, Fraud Detection, Fraud Investigation, Risk Assessment, Sanctions Screening, PEP Screening, Adverse Media Screening, SAR Escalation
Investigation: Case Investigation, Escalation Handling, Policy Compliance, Regulatory Compliance, Financial Crime Detection, Customer Verification
Analytics & Reporting: Root Cause Analysis, KPI Monitoring, Dashboard Preparation, Data Analysis, SQL, Excel (Pivot Tables, XLOOKUP, Power Query)
BI & Tools: Power BI, Jupyter Notebook, Git, GitHub, Customer Investigation Tool (CIT), Google Admin Console

PROFESSIONAL EXPERIENCE

Wipro Ltd (Google Client) | Quality Analyst — AML & Fraud Operations

Mar 2026 – Present

- Conducted quality audits on 300+ AML/KYC fraud investigation cases per week — assessed CDD/EDD accuracy, regulatory adherence, and documentation integrity, reducing team error rates by 90%.
- Performed root cause analysis on recurring compliance failures and implemented SOP updates that standardized investigation workflows and improved reporting consistency across a team of 10 analysts.
- Built KPI dashboards and quality performance reports in Excel — tracked SLA adherence (98%), error trends, and compliance metrics for management stakeholders.
- Led calibration sessions with team leads to align on KYC/CDD standards, resolve case interpretation gaps, and ensure consistent fraud investigation outcomes across all AML verticals.
- Mentored 10 analysts on AML investigation procedures, KYC compliance standards, and quality benchmarks — improved team accuracy and operational excellence.

Wipro Ltd (Google Client) | Senior Fraud Analyst

Sep 2025 – Mar 2026

- Investigated payment fraud, Account Takeover (ATO), money mule activity, and 1st party fraud across GCP, YouTube, and Workspace — applied transaction monitoring and behavioral analysis to detect financial crime patterns.
- Conducted CDD and EDD reviews — verified customer identities, assessed risk profiles, and ensured full adherence to KYC regulatory documentation standards and internal AML policies.
- Managed the Billing Instrument Change (BIC) process end-to-end — screened for stolen payment instruments, escalated suspicious activity with structured SAR documentation, and coordinated with compliance stakeholders.
- Reduced false-positive review effort through data-driven investigation workflows and pattern recognition — contributed to process improvement initiatives that enhanced fraud detection efficiency.

Wipro Ltd (Google Client) | Fraud Analyst

Jan 2025 – Sep 2025

- Reviewed and investigated customer transactions and account profiles for AML/KYC compliance — identified fraudulent behaviors, policy violations, and risk indicators using internal fraud tools and Excel.
- Escalated high-risk suspicious activity cases with accurate SAR documentation — maintained strict regulatory compliance and internal policy adherence across all investigation outcomes.

PROJECTS

Financial Fraud Analysis Dashboard | Python | SQL | Power BI | Excel

- Analyzed large-scale fraud transaction datasets using SQL and Python — identified fraud patterns, risk indicators, and anomaly trends across customer segments.
- Built an interactive Power BI dashboard with KPIs covering fraud rate, detection accuracy, and trend velocity — delivered actionable insights for risk mitigation and compliance reporting.

Customer Churn Analysis | Python | SQLite | Pandas | NumPy

- Queried a SQLite database using SQL, cleaned and transformed customer data with Pandas, and performed EDA to identify churn patterns — generated business insights supporting retention strategy decisions.

EDUCATION

B.Tech — Electronics & Communication Engineering | Hyderabad | 2019 – 2023 | CGPA: 7.0

KEY ACHIEVEMENTS

- Maintained 98% SLA adherence across 300+ weekly AML/KYC case reviews — consistently top performer in quality and compliance accuracy.
- Reduced team error rate by 90% within 3 months as Quality Analyst through structured auditing, root cause analysis, and SOP improvements.
- Promoted 3 times in 14 months — Fraud Analyst → Senior Fraud Analyst → Quality Analyst at Wipro (Google Client).
